

NASEO-2022-RFP-002 Frequently Asked Questions (FAQs)

Following are questions NASEO has received from applicants with their respective answers. If you have additional questions regarding NASEO-2022-RFP-002, please contact Kirsten Verclas (kverclas@naseo.org).

- **Question:** Is it acceptable to have a team (i.e., more than one contract company as part of the team) work on the solicitation or is it NASEO's wish to have only one company support this effort?
 - **Answer:** For this RFI, NASEO accepts proposals from one company, proposals from contractor teams or proposals which include subcontractors. If the proposal consists of teams or subcontractors, the different entities should be clearly identified in the proposal and the level of effort outlined in the budget accompanying the proposal.

- **Question:** Does NASEO have a specific budget for the project?
 - **Answer:** Yes, NASEO has allocated up to \$90,000 for the two publications combined.

- **Question:** Would it be possible to submit a proposal for one of the reports only?
 - **Answer:** Yes, NASEO accepts proposals for only one of the two publications. Please keep in mind that the budget referenced above is for both publications combined. Proposals for only one of the two publications must identify which of the publications the organization is responding to.
